You were very kind to send along so much information about my grand mother's sister, Virginia Harmon Andrews, + her family. I have finally dugged out the 3 vol book of family letters I put together and found letters from Virginia, ~~her~~ mother Margaret Potts Harmon, + Virginia's husband. You will see there was much bitterness (almost panic) on Margaret's part - when she learned Virginia + family were to move from Binghamton to Chicago - + join Dr Teed.

Virginia's father Allen Cobb Harmon was ill in first letter.

June 1-1889 - They're in Chicago - ^(Virginia) she describes living arrangements.

Dec 1-1889 - Dr Andrews' has had a stroke, + Margaret is helping nurse him. She also visits her niece Emaline.

What was Normal Park? Did all the children live separately from Parents?

I hope these will afford you back ground - as well as a good chuckle over cold fish!

Thank you again for you help!

Sincerely, Paul (Roberts) Harris
