Ladies and Gentlemen :

I am glad to be introduced to you by Mr. B e n d e r , who has been my teacher and spiritual leader since July 1939. He made me acquainted with the " Cellular Cosmogony " and all the ideas of K o r e s h , renewed and completed by himself. The cognition which I thus acquired, filled me with happiness and enlightened the darkness in which we otherwise would be condemned to live.

So my fate as German Jewess has got a wonderful sense just at the moment when I was preparing my immigration to U.S.A. My knowledge of K o r e s h ' s work has caused in me the desire to make the acquaintance of you all as " K o r e s h a n s " .

Having recognized the importance of K o r e s h ' s work I am now surprised that during my two journeys in U.S.A. in winter 1923/24 and in summer 1938 I never heard a word about K o r e s h ' s ideas, nor of the "Koreshanity " and I wonder if everything has been done to publish and spread those ideas in your country. I am sure however, that my American and German friends over there will be highly interested in them. I think, I can do a great deal to make them known to an extended circle of spiritual and truth-seeking people.

It seems only too wonderful to me, that the ideas of a genius as K o r e s h , who lived years ago in the " New World " , have been discovered quite independently and revived by P e t e r B e n d e r , living in the " Old World " . This is a miracle by which Death and Life have been united in the universe.

I am indeed looking forward to meet you soon, to learn from you too, and hope for a mutual understanding.

Yours sincerely

Hedwig Michel

Dear Mrs. M a n l e y!
Dear Mr. M a n l e y!

As you will read in the letter of Peter Bender you and I entered his life and work in the very same moment. As if we had been combined even unvisibly we met ourselves in the central point of the Cellular Cosmogony which K o r e s h and P e t e r B e n d e r have been chosen to discover. Not knowing from one another every one of us three -you both and I- were doing our best to propagate the system and develop the ideas of wisdom, love and healing power as basis of new livingforms.

Now time will come, when we shall meet personally. I hope, you will understand my feelings when I say: I am trembling, for there are holy things which shall unite us and holy things we shall have to discuss. In the same deep feelings which make me trembling with delight and expectation, I long for the moment to make your personal acquaintance. I know you, Mrs. Manley, by your visionary act of presenting Peter Bender's papers on June 4, 1939 to Mr. Manley with your words: the best present of all!
I know you, Mr. Manley, by your fundamental Letters. Knowing you so far I have the comprehensible wish to be known to you too, to speak to you and discuss with you the ideas of Peter Bender and the possibilities and necessities to act and work in their sense.

I feel the responsibility in being sent to you, as a holy mission helping to spread out "the new ABC" in all its spheres from the happy beginning to the happy end, by culturing happiness in all parts of life, in both the light and heavy ones. Not theoretically but from a practical proof and many earnest experiences, I live to fill the principle of "Keep smiling" with a moral sense. So I have lived with all the great and wonderful help coming from the unvisible and uncalculable powers.

On this way of mine I am led to you as living bridge from the Old World to the New World, to tell you what I know, to learn from you how wisdom, love and power rule your life.

Dear Mr. ...
Dear Mr. ...

As you will read in the letter ...
I will be glad to find any word from you
by landing an USA for a new beginning there,
which shall be a logical continuation of
the end here, connected by the bridge under
and over which life is still flowing.

I greet you
