

NEW ADDRESS:

1036 Katherine Street  
Lovejoy Park  
Fort Myers -- Florida

August 11, 1938.

Dear friend Prof. Morrow:

Many thanks for sending me copies of the very attractively gotten-up brochure "What is Truth?" - your Publication Unit No. 2. I have been studying it with much care. And it has inspired me to try to answer for my own completest satisfaction that same supreme question of questions: What is Truth? My attempt is not merely to define a truth but rather the truth! And I feel that you had the same thing in mind when you gave your brochure the title, "What is Truth"? You are not merely seeking some truth or a truth, but the truth - the central truth! The basic truth!

"Ye shall know the Truth, and the Truth shall make ye free!" Truth is therefore that which makes us free. Free from what? Free from aging, withering and dying. Yes, but that is not enough. It must also make us free from bodilessness! Or in other words, free from disembodiment! Free from being without a specific body! -- Jesus is not free from being without a specific body - He is therefore not really free - until He has returned and descended and taken possession of the body of some living man as His specific embodiment. He must become a living Scientist as well as Savior.

In short, God is not, until He is a living man. God is not free - liberated from His ghostiness until He is specifically embodied. And only in the cellular cosmos is this complete union of God and man conceivable. For only to the man who is familiar with the cellular cosmos, is God receivable. No living man can really know himself as God, unless and until he knows the universe as cellular, and himself as the VITRON of that cellular macro-organism. The original VITOSOPHIST or VITRON or KENTRON must be this man, and no doubt as the world begins to find out that it cannot get on without centering itself to this GODMAN as vital center, it will begin to discover him and to awaken him more and more.

"The Universe must be a structured unit, an organic whole, with all parts so related and integrated as to bring about reciprocal action and constant co-operation, in accordance with definite purpose." P.12

and then these significant words: "Assuredly, such a concept is in keeping with an intelligent and far-seeing Creator, and is distinctly in contrast with the point of view tending in the direction of chaos, dissolution and death as the end...."

-- There's the point! How can we show and prove to the people, that "VITOSOPHY" will actually lead them away from chaos, dissolution and death? I venture to suggest that we must first show it in our own lives. By our own renewal and rejuvenation. And this we can only do, if we build up a mental battery, that shall have the same form as the great universal battery. Namely one man as Sun in the center, and the others of us as a cellular circumference around him. Only as we center our mental forces to the one central man, can he become more and more blended with the God-nature, so that he in every sense of the word becomes "GOD". He will then be none other than Jesus reincarnated, and Cyrus incarnated, etc. For God is the composite genius of all men of genius.

It is not perhaps my privilege to urge you to give us permission to look to you as the man whom we by our co-operative mental concentration can develop into "God". But I am emboldened to make the suggestion any way,

Conrad B. Borchert

because I can read so clearly in your brochure the fact, that Dr. J.V.M. is simply an echo to yourself. Without you, he would have nothing at all. And yet he is extremely valuable in order to "step-down" your matter for a wider circle of people.

But the VITAL TRUTH is that you are the dynamic center of the whole world-propaganda for cellular understanding right now! Why not dare to come out fully before the world. Show that the whole meaning and purpose of the cellular cosmos is to gestate and bring to consciousness a man as God. Only in this way can the world turn away from chaos, dissolution, and death, - and turn Godward, i.e. Godmanward!

.....Just think how 'Father Divine' could turn the world upside down and bring it to attention around himself, if he had the knowledge of the universe which you have! Why the whole world would pause and tremble. His claim to be God, testifies to his great courage - and even this wisdomless courage is bringing great benefit to his people. ...The Mormon Church likewise, frankly teaches that God is nothing but a man who has developed himself from manhood to Godhood. They know this theoretically, but do not have anyone with the courage to come out frankly as the living man who is the specific one now who is developing toward Godhood at this time in this cycle. Nor do they have the cellular cosmogony.

Even so, Uranda in California (I think you would be interested in his free weekly mailings - address Box 1106, Oakland, California) is in a most beautiful way teaching the people that the man who is now developing into God in order to righteously rule the world, must be awakened and found.

The famous comic magazine, "JUDGE", has a full page cartoon in the current issue, calling for a "Messiah's Union" as a branch of the American Labor Unions. -- This shows that the time is here - both in the comic as well as in the serious currents of human thought, when a scientific messiah can win the polarity of the world to himself.

Koresh had the courage to come forth and serve the people as God, even though he must have known full well that he would not himself be able to escape "chaos, dissolution and death". And today the need for a messianic character is much greater than it was in his day. People are much more ready to realize that a Messiah is not a spiritual thing somewhere up in the sky, but that he is a man who has developed the scientific mind which can see the Universe as a whole and in all its parts.

....I recently met Bro. Moses who told me that he remembered the exact incident when the messiahship passed from Dr. Teed over to you. You had found something that he was not able to move forward to. The result was he began to decline, and you began to mount onward. In short, the messianic consciousness passed over from him to yourself. The thirty-year period since his death in 1908 is up this year and perhaps the time is now here for you to openly come before the thinking Koreshans as the living Godman.

The old Post Office building etc. burned down at Estero last Monday morning; so even the bones of Dr. Teed have now burned up. A big new bridge had recently been built, so the whole place looks new. It is time for some new developments all around. -- With a living polar point, we can then answer the question "What is Truth?" in a clinching way, thus:

"Truth is that which when one has it, makes one so different from all others, who reject it, that while they are aging and withering and dying, one is (we are) rejuvenating and blooming and coming into vital life; while they are dying, we are tending away from 'chaos, dissolution and death'!

Those who really have Truth, will be as markedly different from those who have it not, as noonday is from midnight. Let us make Truth Vital, by polarity openly presented. Yours for Vitosophy.
